From,
The M.L.A.s of the N.Kanara District,
at Poona.

To,
Shri. M.M.Naik-Nimbalkar,
Minister for the Public Works Dept.,
Poona.

Subject :- Electrification of the small taluka towns in the N.Kanara District either by Electric grid system or by nursery Thermo-electric plants.

Sir,

We desire to bring to your kind notice that our district, which has been recognised to be one of the most backward district in the State and lying on the southern-most boundary, has been completely lost sight of in the matter of some of the benevolent schemes, undertaken by the State during the last 5 years. And specially so in the matter of the extension of electrification of small towns and rural areas. It is seen from the Budget book that the Govt. had so far spent huge amount ~~so far~~ on various electric schemes completed at different parts of the State. It is also learnt that the Govt. intends to spend nearly 60 lakhs of rupees in the Karnatak region of the State under the 5 year plan on electrification of the towns and villages.

Till this day our district-public had some hope that they will get electricity from the State's quota of energy, to be received from the Mahatma Gandhi Electric Works, Mysore. The ministers of the State, while on tour in the district, had also given encouragement for such hopes. Now the whole scheme of distribution of Jog power is approved and put into execution by our Govt. and according to that scheme the said energy is completely supplied to different regions in ~~x~~ Dharwar district. An amount of Rs.213lakhs will be spent on this scheme. We, the undersigned M.L.A.s, have no quarrel with the Govt. on this item of expenditure, although the poor agriculturists of the below-ghat talukas of the district have to suffer annual loss to their crops owing to the floods caused by the tail water of Jog Dam.

In the above scheme of Jog power distribution, Sirsi town of our district is included as it is on the way of power transmission lines. This town is already having its own power since last 2 years. Again it is learnt that though Haliyal, another town in the district is on the way and a sub-station is to be built within 2 miles distance of that town, ~~is on the way~~, it is not included in the distribution scheme. We, therefore, request you to supply us the rough sketch and plan of this scheme, so as to enable us to satisfy the inquisitiveness of the district public. We further request you to include Haliyal town for the purpose of electrification under the scheme if a sub-station is to be really built near that town.

PWD

See P.W.D. 28/8/52

Secondly we desire to bring to your kind notice that our district is a very poor district owing to 75 percent of its land being the Govt. forest land, yielding nearly a crore of rupees annually to the State Exchequer. Besides this high revenue to the Govt, much of the minor forest wealth of very high value and which can be utilised in the manufacture of paper, ply-wood etc., is wasted every year for want of cheap power and technical advice. The man power in the district is abundant and idle also for want of occupation. Hence it is necessary that the Govt. to undertake some industrial projects also along with the electric schemes as suggested in the Report of the Bombay Economic and Industrial Survey committee (1938-40).

For the electrification of 2 small towns in the district viz. Bhatkal and Karwar, 2 seperate joint stock companies have been formed about 3 years ago. But they could not make much headway in their ventures so far owing to the poverty of the district. We, therefore, request you to consider the feasibility of granting such subsidies to the above concerns on such terms as the State Govt. deems fit to impose in the interests of the State Exchequer.

Lastly we suggest to the Govt to undertake the electrification of other taluka towns in the district in the next 2-3 years. In this connection we desire to bring to your kind notice that the Govt. had already completed 7-8 such nursery schemes in the Belgaum and Bijapur ~~Inhumes~~ districts each. Hence it may not be out of place if we suggest that the top priority should be given to our district in the matter of next expenditure item in this connection.

We earnestly request you now to place this letter before the next cabinet meeting and its considered decision be communicated to us as early as possible.

A reply to this letter may please be addressed to Shri.A.N.Kamat, M.L.A., Honavar (N.K.).

Yours faithfully,

T.M.Hegde Kotensar,
B.P.Kadam,
R.G.Kamat,
R.N.Kamat,
P.S.Kamat

Poona,
13th August 1952.

Copy respectfully forwarded to Dr. Jivraj Mehta, Minister for Finance and Industries, Bombay State, Poona with a request to consider this letter sympathetically in his 2 depts.

HUBLI 10th December 195 2.

The Executive Engineer,
Jog Karnatak Electric Grid Department,
Hubli.

Sub:- Towns proposed to be supplied with — Jog-power.

Sir,

We shall be obliged if you will kindly - inform at an early date the names of towns which are going to be supplied with Jog Electricity and also the areas within which it would be possible to issue power, subsequently. The probable dates and the detailed-programme of actual issue of power to the consumers of the different areas may kindly be informed. We would like to know if Gadag and the surrounding area is going to receive power.

Thanking you,

Yours faithfully,

Hony. Secretary.
